You said you would leave it not ever underneath the sky forever....

It's cool by the sea when the pavement is hot

We take a walk down there to see what we've got

An old man collecting fifty beautiful words

Cleaning the beach so he can teach us to

Dance...

Its cold by the pane glass on the high street we played,

Theres always a penny in the music we made.

So far from home and, no means of return,

burning the bridges so we'd always.

Dance....

When we're so far from home. No means of return ...
