

Stratovarius - Season Of Faith's Perfection

Am
F Seasons they come seasons they go
Am Observing them in their perfect flow
F Changing my life as they pass me by
G Drying my tears letting them die
Am In the sunrise I am born again
F In the sunset I die again

What will you do when all fails?
When you feel like a ship without sails
When desperation fills your mind
And the pain makes you blind
In my silent truth I scream these words
THE HOPE IS LOUD!
Never give up

Am
F Season of faith's perfection
G Hold on to your good thing
Am Every day there's a new chance
F To start once again
Season of faith's perfection
Forgive yourself
Let go of the past
Be gentle, understand...
